

FingerProof™ Safety Design

Steel-Line's Inspirations aluminium sectional garage doors feature a curved finger proof joint for added safety. This unique design not only safeguards your family against serious injury, it also seals out elements that can penetrate conventional aluminium garage doors. For added safety you can also install a photo eye beam as an optional extra.

NOTE: The face fixed Inspirations garage door does not have the FingerProof™ safety feature.

INSPIRATIONS GARAGE DOORS

A stunning range of stylish finger safe aluminium frame garage doors with a wide selection of composite inserts for you to match with your home.

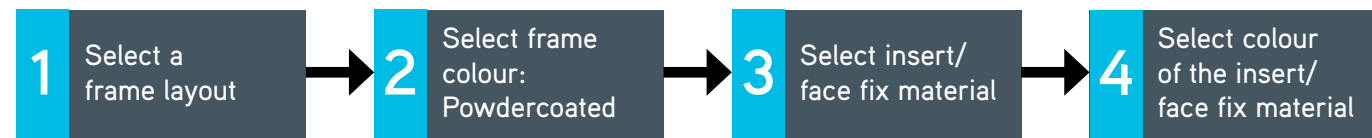

Stylish, safe and durable.

Steel-Line's innovative Inspirations range of garage doors offer you over one hundred choices. Simply choose the style that matches the façade of your home, choose your frame colour and then match the insert to create a look as individual as you are.

Your finished garage door will look architecturally inspired, and for a small premium, we can powdercoat your frame in any colour and glaze with customised inserts.

With Steel-Line's finger safe extrusion, you can rest assured that not only will your new garage door be stunning to look at, it has improved safety for you and your family.

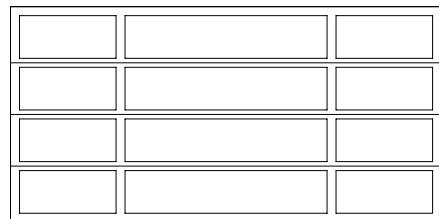

4 EASY STEPS TO SELECTING YOUR INSPIRATIONS GARAGE DOOR

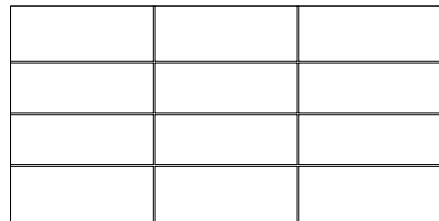

1 FRAME OPTIONS:

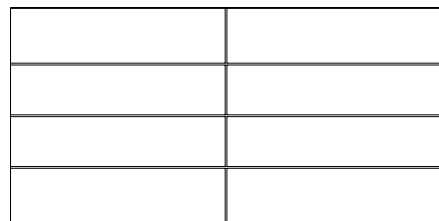

Equal Quarters

Quarter/Half/Quarter

Equal Thirds

Half 50/50

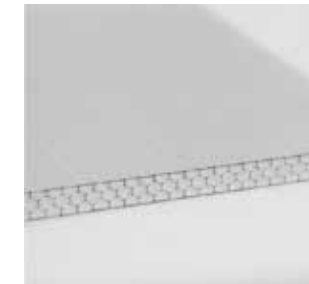

*Additional layout designs are available upon request.
 *Number of panels high is determined by the size of the opening <2440H = 4 panel >2450H = 5 panel.
 *Some frame layouts may not be available with certain inserts due to limitations in sheet lengths.

2 STANDARD FRAME COLOUR / MATERIAL OPTIONS

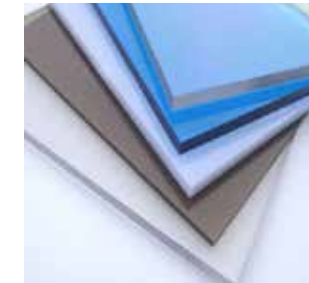

3 INSERT OR FACE FIXED OPTIONS

Polycarbonate Multiwall

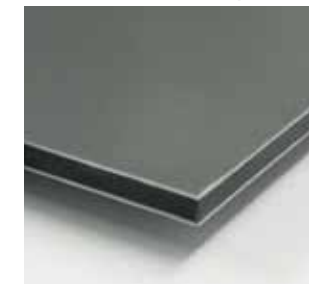

Lightweight with unrivalled strength and durability. The multi-walled nature reduces heat, is UV rated and is translucent. Perfect for allowing natural light into your garage without compromising security.

Acrylic

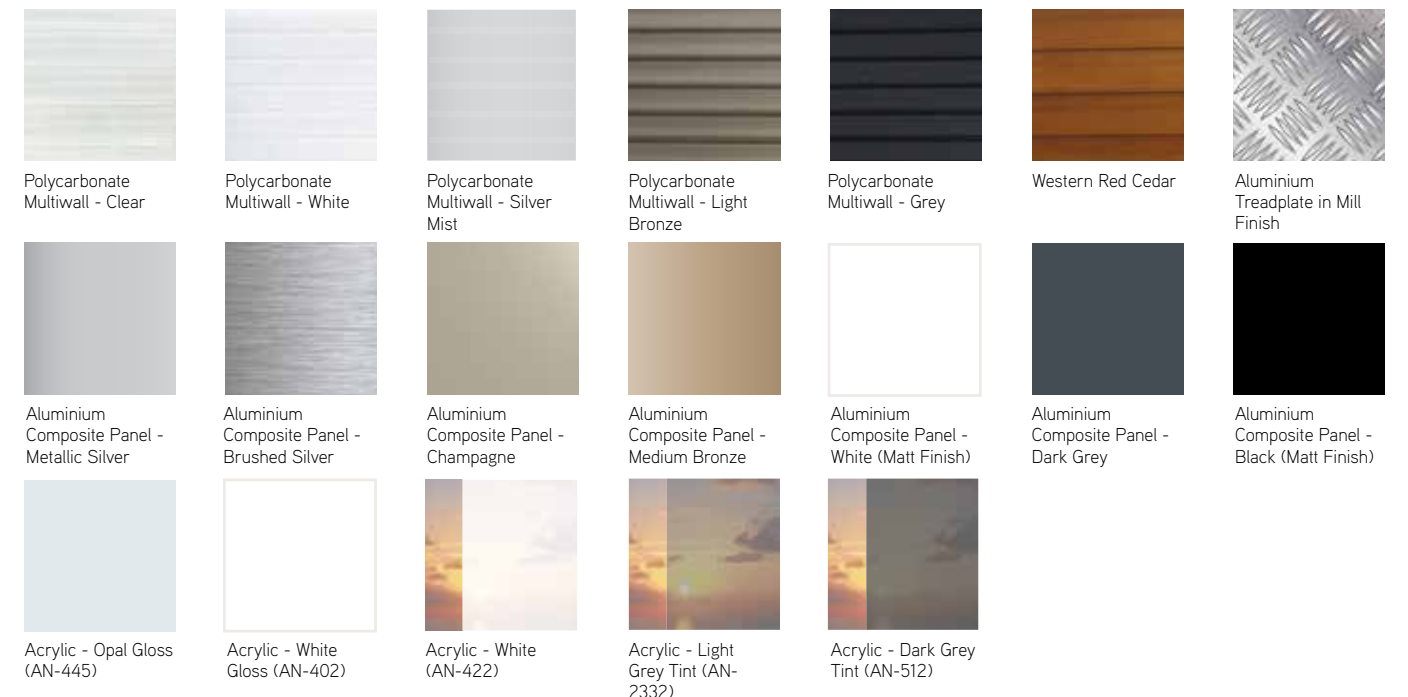

Strong, translucent, UV protected solid Polycarbonate sheets. Perfect for natural light with next to no visibility into your garage. Combined with lighting in your garage, this can become a prominent feature of the home.

Aluminium Composite Panel

Two layers of aluminium sandwiched between a non-aluminium core. A stunning modern look with a shadow-line 3D effect is created between the two aluminium composite sheets with a nominated gap.

4 STANDARD INSERT COLOUR / MATERIAL OPTIONS

Note:
 • The colours shown are a guide only. The limitations of printing processes make extremely accurate matches impossible. We strongly recommend comparing your choice with actual samples, as the Inspirations finish variations in the colour will be evident. Additionally, we reserve the right to vary or delete colours without notice.
 • This door may not be suitable for cyclonic areas. Please check with your local council for your home's specific wind load requirements.
